The stand is easily constructed by inserting the tubular elements into the shelves and if required adding the securing screws to build a stand with strength and integrity. The unit can have a header, a back panel or sides attached.

Standard height 160cm including header and footer. 60cm wide by 40cm deep injection moulded shelves, with optional barker. Screen printed header can be offered in single or multi colour options. Flat packs for efficient shipping, each shelf can sustain 20kgs. We offer bespoke customisation for the unit including shelf fittings, edgers and more.
